

## **Ram Breeding Soundness Examination Workshop**

### **September 7, 2018**

Presented by the following:

**University of Nebraska Great Plains Veterinary Educational Center (GPVEC),  
U.S. Meat Animal Research Center (USMARC)**

Location:  
University of Nebraska  
Great Plains Veterinary Educational Center  
Clay Center, NE

Objective: Implementation of Breeding Soundness Examinations (BSE) in rams is an important aspect of sheep production to insure and improve reproductive efficiency, a key component of sustainability and profitability for sheep producers. The objective of this workshop is to provide knowledge and training for veterinary practitioners who provide or intend to provide this service to clientele.

#### **Friday, September 7, 2018**

7:30-11:30      Ram Breeding Soundness Examinations  
*Dr. Dietrich Volkmann*  
*Professor - University of Missouri*

11:30              Lunch

Participants are encouraged to attend the Cooperative Sheep Production and Health Educational Meeting (see additional agenda) beginning at 12 noon.

Continuing education credits for veterinarians have been requested for both the Ram BSE Workshop (Friday morning) and the Cooperative Sheep Production and Health Educational Meeting (Friday afternoon and Saturday morning).
